## Course Outline

### Law Enforcement Officer Baton Training Course

#### **Course Goals**

Are the baton techniques or tactics that you have learned in the police training schools enough to protect you, or members of the public?

Protecting yourself or members of the public is your responsibility. If you cannot protect yourself how can you be expected to protect others in the line of your duty as a LEO?

#### Expandable Baton Training

The Short stick / Expandable baton are very effective and powerful weapons. However to understand its effectiveness you will need to learn how to use it in stressful situations and under stress of an attack.

During this course Learners will explore how to generate the most power out of strikes when being violently attacked wearing your LEO equipment, i.e. uniform, duty belts, body vest and other related appropriate equipment used when on duty. The learners will also be equipped with protective equipment and goggles were appropriate to the risks involved during the reality based scenarios.

Under stress and when you are suffering from adrenaline a person's ability to act & make correct decisions will be dramatically decreased. The learner will be surprised how little they will remember and how basic their actions and movements will be.

#### **Topics:**

- Verbal de-escalating techniques
- Easy to hit targets
- Consciously Forced Body Reactions
- Offensive baton / short stick combination work
- Scenario based exercises

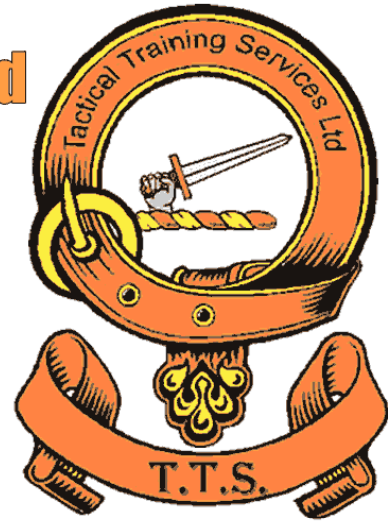

This baton training course is a stage – by - stage training course that has been developed to show LEOs (Police officers, Prison Officers, Military and in certain countries Security Officers (not the UK) how to use a baton or short stick effectively.

You will learn appropriate techniques on how to hold and use a baton against a physical attack of violence, and the use of verbal commands towards the attacker or subject.

The Law Enforcement Officer Baton Training Course is designed for the safety of Law Enforcement Officers all over the world. These skills are easily learnt and are ideal to gain control of an attacker / subject.
